Question text

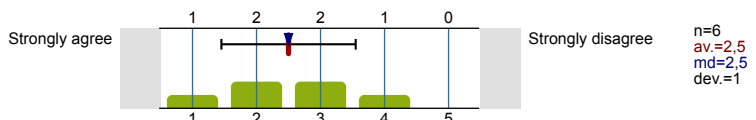

1. Conceptual design of the project week:

1.1) The project week was appropriate to apply theory to practice.

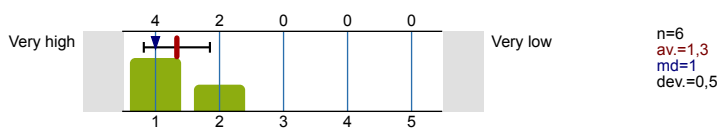

1.2) The goals of the project week were clear to me.

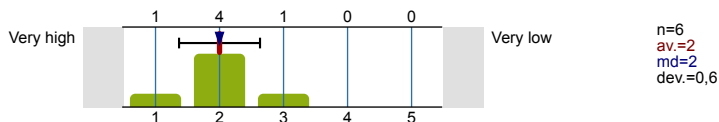

2. Self-Evaluation

2.1) How do you assess your own commitment during the project week?

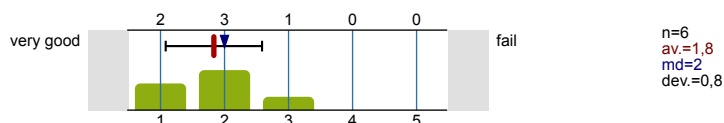

2.2) How do you assess the increase of your knowledge due to the module?

3. General evaluation

3.1) Overall impression of the project week (1=?very good? / 5=?fail?):

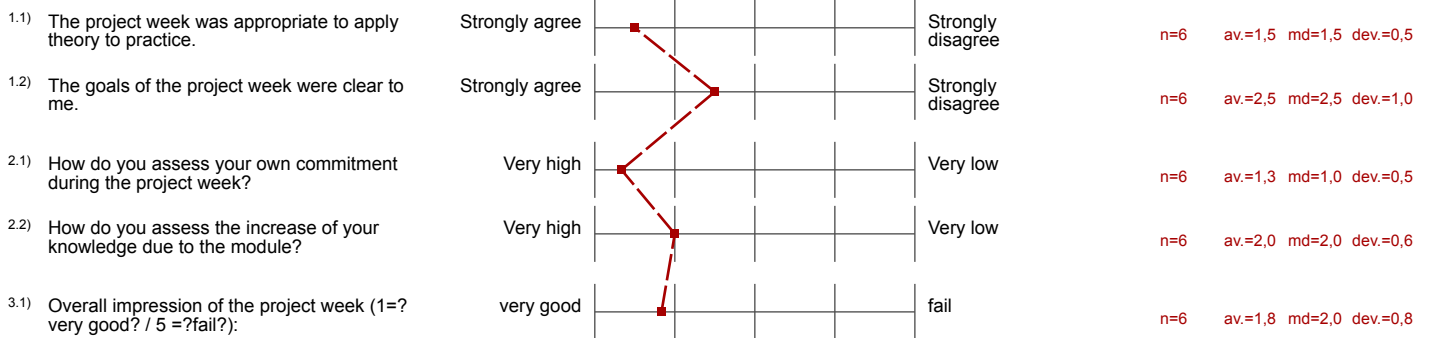

3.2) Would you recommend the project week to your fellow students?

Profile

Subunit: Fakultät für Wirtschaftswissenschaft
 Name of the instructor: Prof. Dr. Uta Wilkens
 Name of the course: Advanced Seminar on Change Management (Praxiswoche)
 (Name of the survey)

Values used in the profile line: Mean

Comments Report

4. Do you have any further feedback or recommendations for us?

4.1) DO YOU HAVE ANY FURTHER FEEDBACK OR RECOMMENDATIONS FOR US?

Die Aufgabe war sehr interessant und es ist ^{ein} "erreichendes",
^{eine solche} Praxis bezogene challenge durchzuführen. Allerdings
 könnte die Organisation etwas besser durchgeführt
 werden (bessere Kommunikation, wann passiert was?)
 und eventuell der Zeitrahmen etwas vergrößert werden
 um den Stress auf die Gruppe etwas zu reduzieren.
~~Vielleicht hätte man dann auch noch~~ Vielleicht hätte man dann auch noch

Because this is a International seminar maybe it would be better
 if we can talk and discuss everything in English so nobody
 is left behind and everyone who didn't speak english can
 100% participate in the practice week.

The times and purposes of meetings should be made clear as well as
 language. Sometimes it was hard to follow discussions and
 meetings due to the change of languages. Work distributions
 should be equal for everyone, this was not possible caused by
 language difficulties (interviews in german) and ~~also~~ also
 times some students were absent

Maybe update the module description within the Modulhandbuch and add "attendance required during practice week" or something like this. Cause it has been really time-intensive (travel to Dortmund 2x, etc.) and this effort should count regarding the final mark.

- recommendation: better seminar room (with access to internet & laptops)
 - better coordination of information flow about the time schedule etc.
- it was a great experience to work with a company and to conduct a research on our own
- it was also good that the number of students was low
 - ⇒ better group dynamics & learning opportunity
